

# HLAOLI MANDLA ISAAC

---

## OBJECTIVE

A motivated and detail-oriented individual with hands-on experience in web development through bootcamp training. Proficient in JavaScript and React, with a strong foundation in solving coding challenges and building dynamic applications. Currently upskilling in software development, eager to apply my technical skills in a collaborative environment while further enhancing my expertise in web technologies. Committed to continuous learning and delivering impactful results.

---

## EXPERIENCE

### ICT CADRE

*Department of Education, Free State*

SEP 2022 – MAY 2024

As an IT Cadre at the Department of Education, I assisted in the maintenance and troubleshooting of computer systems and networks. I supported the development and deployment of educational software applications, ensuring they were up-to-date and secure. Additionally, I conducted regular system updates and ensured data security and integrity. My role also involved providing technical support to staff and students, efficiently resolving hardware and software issues.

---

## EDUCATION
